PINA SLICER

Freshly cut pineapple

Zummo takes another step forward in its aim to bring fresh fruit to the consumer in a ready-to-eat format. The company's retail range expands with Pina Slicer by Zummo, a solution designed for the retailer and conceived to be used by the consumer. Shopping experience, safety, speed and high profitability make this product a must for any supermarket or grocery shop.

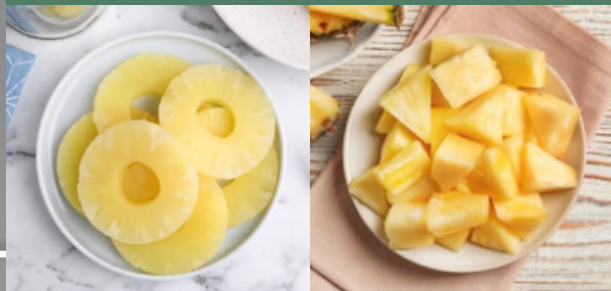

| | |
|------------------|---|
| Types of cutting | 2 Slices or chunks * (to be defined by the operator) |
| Calibre | 7 $\frac{\varnothing 108}{\varnothing 125}$ mm |
| Waste capacity | 50 l |

Chunks: Optional.

How does Pina Slicer make your life easier? Just choose a pineapple, and Pina Slicer cuts off the crown, removes the peel and core, and cuts it into slices, chunks, or block. In just 15 seconds, your pineapple is ready to eat!

Make the difference

Pina Slicer makes a difference in any supermarket, greengrocer, or grocery shop.

- Increases shop revenue
- A great eye-catcher for customers
- Very easy to use and to maintain
